YOUR PREMIUM WINDOWS DESTINATION

UNRIVALED QUALITY

Window Star prioritizes excellence in craftsmanship, ensuring each product reflects superior durability and functionality.

AFFORDABLE LUXURY

Discover the prestige of high-end window solutions without high-end expenses. WindowStar offers premium products at cost-effective prices.

TAILORED EXCELLENCE

Experience unparalleled quality with WindowStar's customizable solutions, meticulously crafted to meet your unique needs and preferences.

QUICK DELIVERY

2-3 weeks to load the products into the container.
4-5 weeks to ship the products to your job site

LIFE TIME WARRANTY

Every customer receives our full written factory lifetime warranty after the completion of their installation.

OUR MISSION

AT WINDOWSTAR, OUR MISSION IS TO BLEND EUROPEAN-INSPIRED DESIGN WITH CUTTING-EDGE ENGINEERING TO ELEVATE SPACES WITH OUR THERMAL BREAK ALUMINUM WINDOWS AND DOORS, CREATING ELEGANCE COMBINED WITH HIGH PERFORMANCE IN A SUSTAINABLE PACKAGE. WE ARE COMMITTED TO EXCEEDING THE EXPECTATIONS OF OUR CLIENTS BY DELIVERING EXCEPTIONAL PRODUCTS THAT ENHANCE BOTH AESTHETICS AND FUNCTIONALITY.

[Siphonic Drainage Design]

[WEHAG Concealed Anti-Pry Hardware]

[6060-T66 Ultra-High Precision Aluminum Alloy Material]

[Chamfered Edge Pressing Design]

[Triple Corner Safety Protection Design]

Our rounded window corners are made with 304 stainless steel, which prevents damage during transportation and installation. Our design eliminates the worry of sharp corners in everyday use.

THE WIDTH OF THE MULLION IS ONLY 20 MM.

THE FRAMES AND WINDOW SASHES ARE FLAT.

PORSCHE RS

PORSCHE RS 85

[MATERIAL] 6066-T66 aluminum

[HARDWARE] WEHAG PORSCHE handle + concealed anti-pry hardware

[OPEN TYPE] Inward opening and inward tilting, outward opening and upward swinging

[SEALING STRUCTURE] Multi-layer sealing

[GLASS COMBINATION] 5 LOW-E + 16 A R + 5 + TSE rigid warm edge spacer

[COLOR] Custom powder coating from AKZONOBEL

[THERMAL BREAK] PA66-GF25 thermal break + TECHNOFORM

[DRAINAGE METHOD] Siphonic drainage design

MORRIS

WALTZ SERIES SLIDING AND INWARD TILT WINDOW

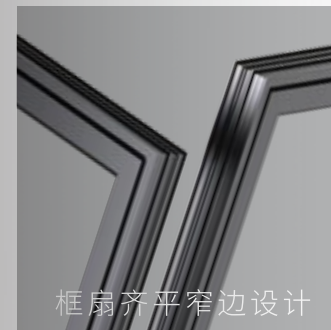

It can slide, tilt inward, and be equipped with a window screen.

The design of this sliding, inward tilting window, with a large opening area for the window sash, doesn't occupy indoor space and doesn't interfere with the opening of curtains or other items. When the window sash is tilted inward, it can prevent rain and theft prevention, while also providing micro-ventilation functionality.

LATERAL DISPLACEMENT

WALTZ SERIES

框扇齐平窄边设计

隐藏式五金结构

[MATERIAL] 6066-T66 aluminum

[HARDWARE] Mei Shilong Hardware + HOPPE handle.

[OPEN TYPE] slide and tilt inward

隐藏式电动纱窗

红外线防夹手设计

【 Wind and rain sensor control 】

A built-in sensor can detect the approach of wind and rain, it automatically closes windows to prevent rainwater from getting in.

【 Hidden backup power supply 】

In the event of a power outage, the sensor will automatically switch to a backup power supply to close the windows.

【 Intelligent fire alarm linkage 】

When a fire occurs and the smoke alarm sounds, the intelligent control system will automatically open the windows to serve as an escape route.

【 Smart voice control 】

The smart voice module can be linked to popular smart voice controllers on the market to control the opening and closing of windows. When connected to the internet, it can integrate with smart home systems for remote control of window operation.

【 Remote control operation 】

You can choose a T-shaped remote control to operate the window's opening and closing.
